

# **You are invited to the Launch of The 2015 Constitutionalists UK**

## **Under the Ankerwycke Tree at Runnymede Witness to the signing of the Magna Carta in 1215**

This Wednesday 5<sup>th</sup> November sees the launch of a movement dedicated to winning a General Election within the next 5 years, not to form a government, but to form a Constitutional Parliament. **This Parliament of independent MPs**, will proceed to carry out a root & branch reform of the political system including the immediate abolition of the House of Lords.

### ***The process is simple.***

A Constitutional Parliament, having the authority of the people, enacts legislation to form itself as both a standing constitutional convention and a constitutional court. It **will proceed to write a constitution** based on the principles which can be found in its Charter at [www.2015constitutionalists.uk](http://www.2015constitutionalists.uk).

Our General Election campaigns will be devoted to initiating and sustaining a national dialogue with the British People on the principles and the issues around moving from our current system to one where power is accountable. This is what a written constitution means and why politicians shy away from it. It is not a panacea but **100 times better than that which governs us now.**

While this is underway, a government is needed to run the country. The problem is how to get **a government fit for purpose**. Presently there are profound and unresolved political issues such as such as dealing with the fallout of the Scottish Referendum, the European Union stuck between a confederal and federal system, no consensus anywhere on what's next for the economy and the shocking and destabilising inequalities. The political parties are convulsed and without leadership.

The political parties need to regroup. One sign of this happening is the resurrection this week of the Whig party. The best opportunity for the current political classes is for the **2015 Constitutionalists UK** to win a General Election. A competent government can be elected from this regrouping all the while **operating under and accountable to a Constitutional Parliament.**

***Ambitious?-YES-Feasible?-YES-Legal?-YES-Practical?-YES?-Needed?-YES YES YES***
