

IMMEDIATE PRESS RELEASE

THE WINCHESTER DECLARATION TO RESTORE THE RULE OF LAW

*Personal note to editors: The content of this highly detailed and lengthy Press Release is of paramount importance for **every one of your readers**. All our historic freedoms, not to mention nearly every aspect of our nation's essential sovereignty, security and prosperity, are under attack like never before by powerful outside corporate and financial interests working through rogue and treasonous elements within our political class. I worked in a local newspaper (The Westmorland Gazette) for nearly twelve years so I know how your time is both precious and limited, but I would strongly urge you to either find the time yourself to read everything very carefully (especially the letter to the new Lord Chancellor, the Rt. Hon. Elizabeth Truss MP) or to delegate accordingly. Please now read this quote from Kenn D'Oudney's new and excellent book "Democracy Defined -The Manifesto" which inspired this coming together for The Winchester Declaration to launch the new Rule of Law mass movement. Thank you - Justin Walker.*

"Never let it be forgotten that throughout the History of the World right up to date, ALL the greatest CRIMES have been and are being perpetrated by, and in the name of, government.

Government does not 'grant' or 'bestow' the right and power to do justice: upholding justice is the inherent duty of every citizen. The universal supreme common law recognises and provides for the fact that the people have an eternal obligation to enforce common law and protect themselves from lawlessness and injustices inflicted by criminals who acquire positions of power or government.

The secular morality of natural law, and of the traditional pan-European Legem Terrae Common Law (as expressed in Article 61 of Magna Carta), installs the People in perpetuity as the legal force to police, arrest, indict, try, punish and otherwise obtain redress over wrongdoers acting as, or in the name of government."

On Saturday 19th November, in the ancient capital of Winchester, hundreds of constitutional experts and activists will be gathering at the Guildhall under the gaze of King Alfred the Great, also known to history as Alfred the Lawgiver. An urgent coming together is now essential as our ancient, enduring and proven Common Law Trial by Jury Constitution, as confirmed and protected by the 1215 Great Charter of English Liberties, *Magna Carta*, is now under attack by criminals and traitors like never before.

After a planned sequence of presentations from leading campaigners that will prove beyond all reasonable doubt that the United Kingdom has become a lawless country, a formal Declaration will be made - serving notice to our elected servants in Parliament - requiring simply that the Rule of Law be immediately restored to the British people.

As a result, this day in Winchester will be seen as a day of historical importance. It is from this day that a mass grassroots movement will emerge that will frustrate completely the creeping corporate tyranny of Orwellian proportions that is now starting to envelop all of our lives as the global financial elite, in cahoots with rogue and corrupted leading politicians across the political spectrum, seek to collapse the very sovereignty, democracy, security and well-being of our country. Enough is enough!

We now live in a country where blatant fraud, deception and actual treason are being openly practised by both the government and the judiciary in league with the greed and corruption of the financiers in the City of London and the global ambitions of the central bankers led by the very little known, but extremely powerful, Bank for International Settlements.

We also now live in a country where a trial-by-judge kangaroo court, that has no jury - a Star Chamber - can unlawfully deprive innocent and decent people of their children, their homes, their cars and their businesses. These are treasonous

courts that bypass trial by jury common law justice in order to meet and serve the interests of the private banks, big business and even high-level organised crime.

Unfortunately, the British people are blissfully unaware that successive treasonous governments have driven a coach and horses through the Great Charter of 1215, a peace treaty between a lawless monarch and the English people and which predates the first English parliament by 50 years. *Magna Carta* cannot be repealed or downgraded in any way by Parliament – it upholds and confirms our Common Law Trial by Jury Constitution which, using the deliberately suppressed process known as Annulment by Jury (where unjust statutes passed by Parliament can be annulled), guarantees and protects the sovereignty and well-being of the British people against all organised tyranny.

And, finally, we also live in a country where we suffer from austerity cutbacks and increasing financial stress and debt because our government unlawfully borrows money from the private financiers and the central banking system – money that has been completely conjured up out of thin air as debt. The deliberately hidden truth is that a sovereign nation can create, issue and control its own sovereign debt-free and interest-free money that is based entirely on the nation's wealth and potential. This means that a government of a sovereign nation never, repeat never, has to borrow money from the corporate private financial sector. This simple and extremely effective fiscal measure (called Sovereign National Credit) is completely backed up by proven and effective examples from history - history that has been conveniently forgotten by mainstream academia, media and politics. This includes the 1914 Treasury-issued, debt-free and interest-free Bradbury Pound whose immediate restoration would completely transform Britain's economy for the good.

Please read carefully the attached two documents which will give you in more detail why this Declaration is now so desperately needed.

The Winchester Declaration will begin at 11am on Saturday 19th November at the Guildhall in Winchester and will finish at 6pm. Tickets bought on the day are £20 (£10 if bought online at: <http://www.britishconstitutiongroup.com/winchester-conference-tickets>). If you require more information then please either ring me on 07565 795669 or Brian Gerrish on 07841 464187.
