

Report of meeting held at School of Economic Science, 11 Mandeville Place, London W1U 3AJ
See: **Notes of Open Research Group meeting on 22nd Nov 2017: [OpenResearchGroup-171122](#)**

Present: Janos (chair), William, Ellena, Paul, Mary (notes) – Apologies: Ahmet, Ashburn. Bob, John Mc, Philip, Liliias, Steve, Trevor.

Discussion: Ellena is looking after her 97 year old mother, and William has just buried his mother who died at the age of 88. We discussed elderly hallucinations, causes, eg macular generation, and in managing dementia, the educational value for young children in understanding nuanced situations, and how to deal with authorities who try to impose unwanted solutions, like going into a carehome. A remedy for dementia is ginko biloba and CBD oil canabidiol, no THC, refine from hempseed oil.

Paul also mentioned someone who had a spirit bird who led the way, and William had a brother who was always experiencing humiliating situations, which looked like a karmic attraction. William's mother achieved a state of tranquility, seeing things differently towards the end of her life.

William then went on to talk about the family context of Jesus life, his mother's relationship to Zacharias and his wife, her cousin Elizabeth, the four formulas including "a day is as a thousand years, as a thousand years is as a day, except those days be shortened", "none will be saved" (the cycle of judgment). In the parable of the fig tree the master had a fig tree, after three seasons of trying to fertilise it without success the servant asks can he do it one more time, so there were four cycles. In Soddam and Gomorrah can he find 70 or 40 righteous men, or 12, in the end they could find none and the city was destroyed. The fourth formula was the book of revelation John 12, I saw a sign in heaven, on Sept 23rd Kepler's discovered the laws of planetary motion, and his software showed that this had never happened before – he saw a sign that had never happened before, sun, earth, moon, jupiter. The universe is the universal clock, they refer to the earth's clock. *This was all spoken very rapidly and we all wanted William to slow down and explain it slowly so that we could grasp more.*

Paul mentions the **Antikythera** machine. They decided to dive and found a marvelous shipwreck. They also found a peculiar mechanism with bronze gills. In the last few years it has been analyzed using a special X-ray machine was made that takes it apart layer by layer and analyses. You can put in a date, and the device tells you the position of the moon, what phase it's in, the position of the plants at the time, and even about eclipses. This machine has been discovered and analysed – *see further on:* https://en.wikipedia.org/wiki/Antikythera_mechanism – also <https://www.smithsonianmag.com/history/decoding-antikythera-mechanism-first-computer-180953979/> and a presentation on YouTube: <https://www.youtube.com/watch?v=UpLcnAIpVRA>
It would be good if we could get a further presentation on this.

Mary also reported briefly on the the **Uniting for Peace Annual Conference** on "World Religions for Peace" chaired by Vijay Mehta, at the Wesley Chapel on 25/11/2017 of– *further report follows.*
