

Report of meeting held at School of Economic Science, 11 Mandeville Place, London W1U 3AJ
See: **Notes** of 14th December 2016 meeting: **[OpenResearchGroup-161214](#)**

Present: Janos (chair), Mary, Paul. Apologies: Ellena (homecare),

A very brief report of our discussion (written up later, so some details lost) is that Janos was talking about the ideal way that we should try to understand how things should be, through the wholology project:

Mary was concerned that in addition to campaigning for change we do practical action, for example working through projects such as LETS, which demonstrate an alternative way of creating currency. Janos asked whether this project can really work. Mary replied that there is an established methodology through the existing groups, and the only way to find out if it works, is to take part - or help to run - a group, and see what happens, and if problems arise with it, try to solve them, and thus refine the methodology:
