Between 12th-25th March 2018 it hosted 2 intensive weeks of money printing and events. **It opens again as we countdown to our final deadline of 23rd June 2018 to reach our £50,000 target.** During this period there will be more events and money making. The bank is a key part of the feature documentary film 'Bank Job' bringing together a local community to examine how money and debt are made in our current economic system and look for alternatives that may work more in the public's favour: for further details see: <https://bankjobpictures/bank/> • [Event Details](#) • *events also listed below.*

Friday 8th June 2018: 7pm DEMAIN FILM SCREENING at HSCB: Join us to travel a world of solutions at a screening of the film 'Demain.' Thanks to Transition Town Network. £3 tickets [here](#). Showing solutions, telling a feel-good story... this may be the best way to solve the ecological, economical and social crises that our countries are going through. After a special briefing for the journal Nature announced the possible extinction of a part of mankind before the end of the 21st century, Cyril Dion and Mélanie Laurent, together with a team of four people, carried out an investigation in ten different countries to figure out what may lead to this disaster and above all how to avoid it. During their journey, they met the pioneers who are re-inventing agriculture, energy, economy, democracy and education. Joining those concrete and positive actions which are already working, they began to figure out tomorrow's world: <https://www.demain-lefilm.com/en/film>
