

THE RULE OF LAW CAMPAIGN
Putting into Action The Winchester Declaration

**Come to THE GREAT MOOT OF NOTTINGHAM
to put an end to the Treason and to start the
process of restoring the Rule of Law and Real
Prosperity for all the people!**

For those of us who know how our country has been deliberately and provably distressed by our elected servants in Parliament, and who know what the historical solutions are for restoring the Rule of Law to our country, the time has now arrived to get properly organised!

Our gathering back in November last year of 520 people to unanimously pass *The Winchester Declaration* was simply the start. We now have to advance forward quickly to become a broad, grassroots movement that can speedily put an end to the treason, fraud and appalling child abuse that is now endemic within the higher echelons of our political class. Time is unfortunately not on our side - these wretched criminals must now be exposed for who they really are and brought to justice peacefully, quickly and efficiently! The clock is ticking for us to act!

And the task ahead of us is simple if we organise well and do it properly. We are now armed with enormous evidence about what is really happening to all of us. In just three paragraphs our present predicament can be described thus:

For nearly two thousand years, an entrenched and privileged community of wealthy merchants, originally of Roman origin and based within the 'Square Mile' of what has become known as The City of London (the real name is actually The Crown Corporation), have schemed, manoeuvred and profited to such an extent that their financial influence today is paramount. Indeed, their

authority is now global as they unlawfully decide just how much money the world is allowed to spend – money that they have conjured up completely out of thin air as debt using their privately run central banking systemand global debt to these usury-based criminals means complete corporate control and undemocratic and unaccountable governance over nearly all of humanity!

This shadowy cabal of ruthless, powerful and dynastic merchant bankers, using outright treason, secrecy, deception and entrapment, have bought, bullied and blackmailed their way into distressing and supplanting our ancient and magnificent Trial by Jury Common Law Constitution. This hard won Law of the Land structure of governance, codified by King Alfred the Great and confirmed by the Great Charter of 1215, is based entirely upon morality, common sense and common decency. It ensures that the people have an absolute right to be judged by their peers and that the accused are always considered innocent until proven guilty. And, most importantly of all, unjust and bad legislation passed by Parliament can always be annulled and overturned by a randomly selected Jury thus ensuring that we, the ordinary people, are always sovereign - the self-serving and agenda-driven politicians, who claim to be sovereign, seek only to protect corporate and financial vested interests.

Today our ancient Common Law is being increasingly eroded and replaced by the Crown Corporation's own legal system of Roman Civil Law (also known as Maritime Law) which is prevalent in Europe and elsewhere. This alien, and indeed Orwellian system of governance (with its own language of unfathomable 'legalese') is where you are guilty until proven innocent and where politically appointed judges rather than independent juries decide your fate. It exists to support corporate and financial interests and is based almost entirely on commercial and contractual law. It has now infiltrated our judiciary and our court system (where we see judges now committing treason by acting as both 'judge' and 'jury') at the behest of our treasonous Parliament where thousands of Roman Civil Law 'statutes' of legislation have been passed in order to micro-manage our lives away from our ancient and proven Trial by Jury Common Law Constitution. We are being compelled by gross deception and treason to surrender our most basic freedoms in order to conform with the criminal corporate requirements of The City of London and the Crown Corporation. Parliament has effectively now become a citadel of tyranny against the British people.

Despite the clear historical precedent of the 1914 Bradbury Pound and the proven fiscal arrangement of Sovereign National Credit (whereby a sovereign nation's treasury creates, issues and controls debt-free and interest-free money that is based entirely on that nation's wealth and potential), our elected servants in Parliament refuse point blank to restore this common sense and effective way to immediately fund our nation's security, prosperity and happiness. Why? Because it would quickly destroy the power of the Crown Corporation as well as Parliament's ability to have a complex and invasive taxation system with which to control us.

Our MPs are consistently working against us! They deliberately look the other way when massive corporate and banking fraud is resulting in the stealing of houses and livelihoods from completely innocent people. They don't really give a damn that social care is letting down the vulnerable in our society and that the NHS is closing community hospitals and cutting back on other essential services. They don't care at all that our armed services are being cut back to the point that our nation's defences and sovereignty are dependent upon other nations. And they just can't be bothered to protect our strategic industries from predatory and hostile takeovers by businesses from overseas. They are a disgrace – all the political parties are working against us, the people. It's time to stir our nation to peacefully end this orchestrated tyranny against us.

So please come to Nottingham on April 22nd and meet up with old friends and new kindred spirits. **This is YOUR conference**, a real Moot, where we can organise properly into becoming a real grassroots movement to restore fully our Trial by Jury Common Law Constitution and the Treasury-issued Bradbury Pound whilst at the same time exposing and ending Establishment-led child abuse. It's obvious that agents of the Crown Corporation will do their utmost to infiltrate and troll what we are doing so it is vital that we set our movement up in a non-hierarchical way by creating a linear network of dozens, if not hundreds, of self-contained community 'hubs' where people can meet up locally and campaign with like-minded individuals. For the skills and information needed for these hubs to be successful, there will be ten discussion groups or workshops to choose from where you can both learn new information and contribute with your own experiences and ideas. Here is the programme for the day:

They are informal and ongoing so people can drop in and leave when they like. The feedback from these Discussion Groups will then be used to take the Rule of Law campaign forward:

Discussion Group 2 - Article 61 of 1215 Magna Carta & the Successful Lawful Processes

Written Notices, Legalese as a fraudulent language and the future vision of the Restoration of The Trial by Jury Common Law Constitution.

Discussion Group 3 - Successful & Lawful Grassroots Activism in our Communities; Harnessing Social Media to get our message across; and Alerting the Younger Generation as to how they are being deceived and put into debt.

Discussion Group 5. – Revealing the truth to the general public about the Political Party System.
