

# Positive Money Tower Hamlets Community Group

**TO DEAL WITH THE BIG SOCIAL, ECONOMIC AND ENVIRONMENTAL CHALLENGES WE'RE FACING TODAY, WE NEED TO TRANSFORM OUR MONEY AND BANKING SYSTEM. POSITIVE MONEY'S VISION IS FOR A MONEY AND BANKING SYSTEM THAT SERVES A FAIR, DEMOCRATIC, AND SUSTAINABLE ECONOMY.**

## How money is really created and why it traps us in a boom and bust cycle of debt.

We'll be looking at Professor Richard Werner, whose research was the first to prove conclusively that banks create money when they make loans, rather than lending existing money. We'll see why banks cannot be trusted to look after the real productive economy as they pursue easy returns from speculative lending. This only ever pushes property prices up and creates bubbles that will always burst, leaving us as taxpayers to bail out those same reckless banks who consider themselves too big to fail. We'll ask what the Bank of England can do to ensure that productive industry and small business can grow sustainably and make communities wealthy, instead of enriching the 1% who are destabilising our economy and planet.
