INTRODUCING

**A Social-Political-Economy of Trusteeship
in the Co-Evolution of Planet Earth**

We are Trustees of Earth, our Ecological Home

Sense the overall picture of development and progress and then follow through step-by-step

**An early expression of our purpose
lay in the following dense image of the socio-
political-economy of the UK.**

**It depicts the complexity of the Institutions and
their ensuing Public Policies over many decades.**

**Sense only that it represents at least 12 crumbling
foundations that can only be replaced by systemic
structural change.**
